1. The forty-eighth report of the International Atomic Energy Agency for the calendar year 2003 (GC(48)/3) is submitted herewith to the General Assembly. Major developments since the report was published will be covered by the annual statement of the Director-General of the Agency to the General Assembly. * A/59/150.

** The annual reports, in all languages, are printed in Vienna in August of each year as part of the documentation for the General Conference of the International Atomic Energy Agency. A specified number of copies are also sent to the United Nations as part of the documentation for the General Assembly. The present cover note for the report was submitted for translation and distribution in August, as has routinely been done, once the annual reports have been received in New York.
